

## Helping that Helps Workshop

Saturday, April 21, 2018

9am - 12 pm

Calvary Christian Reformed Church  
5300 France Ave S, Minneapolis, MN 55410

In recent years we've come to realize that some of the ways that people and churches have intended to help those in poverty have been more harmful than helpful. Yet we are still called to love our neighbors locally and globally.

What, then, are we all to do?

In this interactive workshop we will hear stories from practitioners, best practices from each other, and be inspired to confidently partner both locally and globally in a way that provides hope instead of unintended harm.
